Vote to be Taken on Consolidated School District July 2

Next Tuesday the ratepayers of Irma, Sunny Brae, Glenholm and Rose School Districts will have a chance to cast their ballots for a modern institution that has proven itself in so many cases one of the most important to rural community life and business.

This subject has been under serious consideration since early last winter and we believe that most of the residents have become conversant with the principles involved and the vote for consolidation should carry by a big majority.

The Department of Education had two men, Mr. R. A. Barron and Mr. F. Parks, go over the districts and prepare estimates of the cost of building and operating a consolidated school at Irma. Both of these gentlemen are very enthusiastic over the prospects of a successful consolidated district. And that is the main consideration; are conditions here such as will insure a successful school. These men are experts in their line; are acquainted with many different neighborhoods; realize what there is to contend with and their report is to the effect that this section is unusually well adapted to such an educational plan.

Time and experience has proven that the Consolidated School is a powerful factor, even at its beginning, in general district improvement. Country residents, regardless of their having children to educate, are bound to be interested in the general upbuilding of farm values and a local high school does just that thing in a score of ways. The first is a standard of good road construction and a reduction of cost in tons on all haulage. One set of good roads must be made and kept in order. Each road pays big returns. One set of good roads means better side lines and soon another complete set of good roads.

A Consolidated School means a good working practical education for each boy and girl, without the necessity of leaving the farm getting out of touch with farm life. It means that the young people on your farm or on your neighbors farm are interested in the farm business and capable of carrying it on on a business basis. It means neat well kept farms; good homes; good barns; and even your neighbors children can build such beside you and raise the value of your own land in actual dollars per acre. That is why every one in the neighborhood has an interest in it from the beginning.

Times are changing and we must change with the times or be a back number. The past ten years have

laid a heavy changing hand on every man's business; has forced the adoption of new methods; and in no line has the change been greater than in agriculture and live stock; in your own business. The city business man has lost his trained young people from his business, when needing them most to handle the changes coming to him and he is looking to the young people coming from the country to the city schools, to supply the brains and the enthusiasm necessary to his own success. That means that the city man is expecting to get your boy or your girl, after they receive a high school training in the city and he will offer city comforts, promotion; a working interest in the business as some of the inducements. And every week spent away from the home farm and home community makes the ties easier to break and adds to the city mans chances of getting your young people.

The Consolidated School with high school training and practical farm courses holds the young folks at home; saves the expense of city schooling; keeps them productive while studying; helps solve the labor problem; and they are on your farm or your neighbors farm helping to make the home district a better place to live in than some other district. And without fail "the best district to live in" is "the best district to buy in" and up goes the values.

The minister of education is a strong advocate of Consolidation but will not consent to a district being consolidated until conditions point to it being a success and the Department considers here to be very favorable. There are over fifty consolidated schools in operation in different parts of the Province and the Department expects to have double that number in operation by the end of the present year.

One of the arguments raised against consolidation is that our roads are not fit to send a van over but this should really be a strong argument for consolidation. It is true that old trails are being fenced off, making the new roads very rough, but very few, if any, districts in Alberta have better natural road-making material than the country surrounding Irma. It is a common experience to have practically every visitor to the Irma district comment on the fine roads that are possible here. Wherever van drivers report to the school board that the roads are impassible, it is the duty of the board to have the municipality fix this road and if not done then to take the matter

up with the Department of Public Works who will have the work done. The men investigating the formation of the district have paid especial attention to the road question. They find that most of the road allowances to be used for school purposes as well as a majority of all allowances, pass through a good clay belt, with no sand, timber or marsh to contend with so that with a systematic organization the roads would soon be put in good shape and stay good with very little expense. These men state that the road problem here is one of the very best reasons for adopting consolidation at this time. In some of the districts now working, very long fills, up to a quarter of a mile in length have been necessary and in other places miles of roads have to be coated with straw and expensive bridges have to be built, while we have none of these to contend with here.

The Department has estimated the cost of operating the vans as well as building and operating a suitable school and their estimate, based on their experience with some fifty districts, is very little heavier than the average present cost of these local districts and we undoubtedly have much to gain in results.

For the voters who are directly interested in the direct advantages to the children attending: there are several very important points to be considered in favor of the consolidated school. In the present system of separate school districts there is a pronounced loss in the way of duplication of school furnishings and teaching equipment resulting in a poorer assortment of supplies than would be provided were the pupils all together. Money now spent in duplication would go to buy more equipment and better equipment. This means both better training and more interest on the part of the pupils themselves. More interest on the pupils part means both better results for the time spent and better attendance. A common result in consolidated schools has been greatly increased attendance average. Under our present system only about 50% of the school age children are in attendance. One very very common cause of children dropping out is the smallness of class membership in the grade the pupil is studying. Lack of any sort of competition makes the work dull and uninteresting. Under consolidation, with a large number in the same grade and equipment sufficient to make the work interesting there would be a desire on the part of the pupil to keep at it for fear others would get ahead of them and this natural competition is bound to be shared to some extent by the parents.

One of the biggest gains in con-

solidation seems to be from the teachers employed being able to do more systematic and concentrated work. As it now stands four teachers are dividing their time over all the grades. Under consolidation each teacher is handling the grades she is best adapted to teach and has three or four times the number of pupils to do the work, resulting in better work on the part of both teacher and pupil. This goes a long way toward providing the teaching staff and expense of carrying on the advanced grades impossible in the small district school.

An item noted by every visitor to consolidated schools in search for information is the absence of shyness and bashfulness generally attributed to children of the country districts. In this day there is no valid reason why the farm reared man or woman should not be at ease in meeting any class of people whatever, either in business or socially and it is school days and school environment that makes that possible or impossible.

Today there is no reason why life in a rural community cannot be preferable to life in the larger cities and the problem of making it so is squarely up to the community itself. And we citizens of that community must provide the facilities and train the young people to seize the advantages the city dweller has built up for himself and plant them and cultivate them in the superior natural conditions of the country.

One other point to be considered measurable directly in dollars and cents to both the families concerned and the community as well is the chance for all pupils to obtain high school training without leaving the community. Any family who has had the expense trouble and worry of keeping one or more away to the city to school knows too well the difference to the family pocketbook when the pupil ceases to be a help on the farm out of school hours, has the extra clothing bill to meet in the city; and boarding and room expense instead of living under the family roof. Figure that difference on each pupil of high school age in the community, who should be receiving three years high school and vocational training each year, figure the loss to farm production under present labor shortage with those children away and then figure the complete loss to the life of the community of the average percentage of those pupils, frequently the brightest and most able of them all, who never return to the community at all but enter other lines of business and you have a total that will far outweigh any of the small items that may at first thought seem to weigh against Consolidated Schools.

There may be some difficulties to be met in working out the operation of the system, any and all good

Preparations Under Way for Great L.O.L. Celebration

The local Orange Lodge are making great plans for their celebration at Irma on July 12 when the Alexandria County L.O.L. will celebrate the crossing of the Boyne. Great preparations are being made by the different committees, the streets are to be decorated and speakers will be here from all parts of the province. A full program of sports is being prepared and they expect to make this a day long to be remembered in Irma.

They had planned on running a special train from Tofield and Edgerton but so far nothing definite has been heard from the railway company. Further notice of this will be given next week. Several auto parties are expected from Killam, Sedgewick, Loughheed, Hardisty and other towns along the G.T.P. and C.N.R.

INSTRUCTIONS FOR CONSOLIDATED SCHOOL ELECTION

At one o'clock Tuesday July 2nd, the resident ratepayers present should elect a chairman and secretary after which all wishing to take part in the meeting must sign the declaration. A poll shall then be opened to take a vote of the resident ratepayers for and against the formation of the proposed consolidated school district, at the conclusion of which the votes shall be summed up and the result declared. Polls will be held at Irma school for Irma district, Sunny Brae school for Sunny Brae district, Joe Gulbraa's house for Glenholm district. Poll open for one hour.

Personal Paragraphs

C. W. Holliday is spending a few days in Calgary.

M. M. Cook has been engaged to play at the dance at Viking, on July 1st.

Mrs. S. C. Curfman returned home Wednesday after a three week's stay in Edmonton where she has been undergoing an operation which has been successful.

Several autos have been making trips to Wainwright to the Chautauqua which has been thoroughly enjoyed by all.

New road work is being done in several districts. Several farmers have volunteered to give extra time to fix up the roads so as to make them passable for the many autos travelling them.

Three hundred and eighty-five persons registered at the Irma school last Saturday. The returns are not in from the surrounding districts but this number was a surprise to most of the town people.

systems have some things to be met and dealt with but they have been met and dealt with successfully in fifty other districts in this province, and will be in fifty more and Irma people have the push and the initiative to do as well. And the reward is unquestionable.

Vote for CONSOLIDATION

Band Busy Blowing

The Irma band is busy these nights practicing for the celebration on July 12. The way the boys are turning out for practice some good music should be produced. Several new players have joined and are very enthusiastic with the practice.

Baby Bjork Dies

Saturday, Allan Bjork, the adopted son of Mr. and Mrs. Chas. Bjork passed away at their home north of Irma. Allan was a very bright child and had only been sick a short time. He was 18 months old. We extend our sympathy to the bereaved foster parents. Interment was at Irma Monday last.

Infant Found Dead

Saturday morning Mr. and Mrs. B. Barber woke to find their month old baby dead in bed. It was resting quietly late in the evening but apparently died from heart trouble. The remains were laid away Sunday in the Irma cemetery. The neighbors and friends extend their sympathies to Mr. and Mrs. Barber in their bereavement.

The six day chautauqua at Tofield closed Monday evening and was a success from every standpoint. The people were well pleased with every program. The guarantee was over-sold before the first day.

WHERE TO SPEND JULY 1st.

U. F. A. picnic, at Fullview school, four miles north of Hardisty.
Sports Day at Jarow.
Sports Day at Viking.

FOR SALE

Geo. Hill, 7 miles north of Irma, has for sale about 200 head of first class cattle comprising cows, heifers yearling steers and heifers, short-horn bull been running with them. Will be sold to reliable farmers on time.

ALEXANDRIA COUNTY L.O.L., Will Hold Their Annual

Published Every Friday, Noon at
Irma, Alberta

June 28, 1918

If you want to increase the value of your farm, vote for consolidated schools.

Dominion day, Monday July 1st, bank and stores will be closed all day.

Watch the grain grow after the steady rain which we had all day Monday nothing can stop the crops boosting along.

Monday will be a quiet day in Irma. Most of the local trades people will take advantage of the holiday and visit the nearby towns where celebrations are being held.

Owing to some misunderstanding the election re consolidated school for Ross district was held last Thursday so there will be no election in that district next Tuesday. Several ratepayers did not know of the election so could not vote. Just how this election will stand will not be known till the papers are returned to the Department.

A rumor was started last week that Mr. R. A. Barron superintendent of organization of schools had left the department of Education. Mr. Barron has asked us to give this rumor a most emphatic denial as he is still on the job and likely to stay. This rumor is supposed to have been started by some parties opposed to the organization of consolidated schools and proves to have no foundation whatever.

Jarrow and Irma should have a good road between the two towns. Last summer some of the business men of Irma removed most of the stones for over half the way, expecting the Jarrow people would finish the work but so far nothing has been done. The trail passes through C. P. R. land most of the way and the municipality or local improvement have no authority to fix them. If a few auto owners would turn out an evening or two with a pick and take the rocks out of the trails and fill the holes this would be a good road and would be used by many wanting to go for an auto ride.

Thanks the Press.

Y.M.C.A., Regina, June 15, 1918
The Editor Irma Times,
Irma, Alberta.

Dear Sir:—The Big Red Triangle Campaign is now a thing of the past, except in the matter of closing up some outstanding amounts.

The Provincial Committee wish to thank you for the splendid co-operation which you have rendered. It is very gratifying to note the hearty manner in which you and other newspapers back up every worthy cause. Let me assure you that your support has not been misplaced.

Criticisms have recently been made against the Y.M.C.A. movement, many of which are not warranted. We have never pretended that the work is perfect. It is easy to pick flaws in any organization. Our work has been heartily endorsed by the highest in the land as well as by thousands of officers and men in barracks, camps and trenches.

I may state further that our National Council are quite willing to meet any inquiries that may be made. Further statements of accounts will be forthcoming in due course. We wish to do for the men what the people of Canada have empowered us to do and an accounting will be given out as soon as possible.

Please accept this little note of appreciation for the great assistance which you have given to a cause of our splendid men.

Yours very truly,

T. D. Patton,
Director Red Triangle Fund

POPULAR WANTS.

For Sale—Registered Shorthorn Bull. H. W. Love, Irma.

Branch of Alberta Teachers' Alliance Started at Bruce

The long talked of Teachers' Union is at last definitely under way, and various educational centres throughout the province rapidly getting into line. A number of ladies prominent as writers, and educational and social workers who have the educational standing in the way of certificates and degrees are supplying for the men to whom exemption has been refused, and are making their influence felt in this profession elsewhere.

The officers appointed were: President, Mr. E. R. Palmer, vice-president Mrs. Dr. Keane, Sec'y Mr. M. J. Hughes, Treasurer Miss Alberta Goodwin.

The resolutions carried embody some burning desires of the teachers for some time past. They were: First: Resolved that we place on record our approval of the recent law passed by the Legislature that the monthly minimum salary for rural teachers be set at \$840.00 per annum and that we request the Department to send official notice of this to all the rural schools in the Bruce district.

Second: Resolved, that a contract properly drawn up according to the Ordinance, signed by the Board and sealed with the District, shall be held to protect the teacher as well as the School Board, as stipulated in the Ordinance and that the education Dept. should use the machinery at its hand in the ordinance to save the teacher the expense of a lawsuit in any such breach of contract or in fighting slanderous or derogatory reports that tend to discredit the teacher professionally or socially.

Third: Resolved that it is a matter of regret that many teachers often travel many miles to take up school work, and on arrival find no suitable accommodation as to board and lodging. That in our opinion teachers residences should be established in all districts but more especially in the rural ones.

Fourth: That we approve of the action of the Head Executive of the Alberta Teachers' Alliance in appointing a special lawyer for the Alliance and for teachers generally.

A Good Farm

— IS WORTH GOOD BUILDINGS —

Any farm is good that provides a living for the family. Comfortable buildings help to make a poor farm good and a good farm better.

Even the land that has been ruined and "turned to the Lord" may be brought back to life by the aid of live stock; but first you must have buildings and fences to make the live stock comfortable.

Each farm is shy a building or two, and most farms need more fencing. Fences for range, health and pasture; barns and stables for storage and winter feeding.

If animals require all their feed to keep them alive and warm, then the grain is being burned for fuel, while the animals are marking time. Time may not be much of an object to the animal but it is to the owner.

BUY THAT CAN'T SAG GATE AND YOUR FENCE POSTS NOW

You are young but once but you can be youthful always if you care for your complexion properly. Daily use of Ingram's Milkweed Cream prevents blemishes, overcomes pimples and other eruptions. Since 1885 its distinctive therapeutic quality has been giving health to the skin and youthful color to the complexion. It keeps your skin toned up, soft and clean.

The refined way to banish oiliness and shininess of nose and forehead induced by perspiration, is to apply a light

touch of Ingram's Vaseline Souveraine Face Powder. It also conceals the minor blemishes. Included in the complete line of Ingram's toilet products at your druggist is the Ingram's Zedenta for the teeth.

Wheat Imports Insufficient

Every Effort Exerted in Canada Will Be Invaluable

The British ministry of food has called to the Canada food board: "While importations are not arriving in quantities sufficient to meet our weekly requirements, every effort that can be exerted in Canada to increase shipments of wheat and meat will be invaluable."

Asthma Can Be Cured. Its suffering is as needless as it is terrible to endure. After many years of relief from the most stubborn cures, no sufferer can doubt the perfect effectiveness of Dr. L. D. Kellogg's Asthma Remedy. Comfort of body and peace of mind return with its use and nights of sound sleep come back for good. Ask your druggist, he can supply you.

SAWYER-MASSEY 11-22 GAS-OIL TRACTOR

THE SAWYER-MASSEY eighty year reputation for quality is behind this machine. The Sawyer-Massey intimate knowledge of the Canadian farmer's need is in it.

It has a vertical 4-cylinder valve-in-head motor, equipped with air-cleaner, high tension magneto and an adjustment carburetor. Water circulation is positive. Power is delivered to both traction wheels and 75% of the tractor weight rests on the rear wheels. Owners have found that these features have a direct bearing on the simple operation and long, reliable service given by the machine.

Our Bulletin No. 321 describes this Tractor. Bulletins describing our 17-34, 20-40 and 27-50 Tractors are also available.

Living Wisely

Simple Rules Avert Many a Domestic Grievance

If the following simple rules were observed by all housekeepers they might avert many a domestic grievance.

1. Pay ready money for everything. Articles that cannot be paid for with cash try to manage without, as it is evident that, out of a fixed income, any bill which cannot be settled at the time is still more difficult to meet later on.

2. Keep an accurate account of all money received, and of the money paid out each week. If the expenditure, when accounts are compared, is found greater than the income, reduce it accordingly. If found less than the income, the housekeeper may make use of the surplus money in various ways, such as reserving it for holidays, birthdays, etc. In any case it is better to err on the safe side by spending under, rather than above, one's allowance.

3. If wealthy, avoid extravagance and waste; there are always those to whom scraps, which would otherwise be wasted, are acceptable. Besides, the old proverb reminds us that waste is surely followed by want; and never did the warning carry such weight as in the present time.

4. In purchasing for the home, remember that cheap things are not always economical. Although every commodity is now extra dear, the price, the discriminating housewife will still find opportunities of ascertaining which particular article is the best value for the money.

A NERVOUS BREAKDOWN

Can Be Averted by Feeding the Starved Nerves With Rich, Red Blood

Nourish your nerves—that is the only way you can overcome life's worst miseries, nervous exhaustion. The fits of depression an irritation, the prostrating headaches, the weakness and trembling of the legs, the unsteady hand and the imperfect digestion that mark the victim of nerve weakness, must end in nervous breakdown if not cured.

Nourish your nerves by the natural process of filling your veins with rich, red, health-giving blood. Your nerves are crying out for pure blood, and the mission of Dr. Williams' Pink Pills is to make new, rich blood. This exposure of these pills have proved successful in so many cases of nervous disease that did not yield to ordinary treatment. For example, Mr. William Donald, of Hamilton, Ont., says:—"Before I began the use of Dr. Williams' Pink Pills I was in a nervous condition. I was not only very run down, but my nerves seemed to be completely shattered. I slept badly at night, and often I got up in the morning as tired as when I went to bed. I seemed to be on the verge of a nervous breakdown at this stage of the disease. The use of Dr. Williams' Pink Pills in the course of a few weeks I felt much relief, and continuing the use of the pills the completely restored my health. I can now sleep soundly, eat well, and am enjoying complete freedom from all the nervous troubles."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Not an Unusual Speech

"Young Gabber made quite a long speech at the club forum last night. 'What was he talking about?' 'He didn't say.'—Judge.

Minard's Liniment Cures Garget in Cows.

Hears Sub. at Thirty Miles

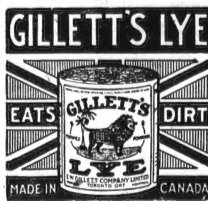

"Ear" Attached to Vessels Is Proving Good U-boat Antidote

That an entirely new device has been perfected whereby enemy submarines are being trapped, and which detects the presence of U-boats at a distance of thirty miles, is the information conveyed to The Chicago Daily News in a despatch to that paper from its Washington correspondent.

"Germany," he says, "no longer can send submarines to the trade routes between the United States and Europe and expect them to patrol these lanes and escape detection whether above or below water. Any submarine which now moves about within a range of thirty miles of any of the allies' patrol vessels can not only be detected but definitely located if it remains long enough in any given vicinity. This fact alone has accounted in part for the great destruction of German submarines in the Atlantic, and may eventually, when the patrol boats become numerous enough to prove to be the prize antidote to submarine effectiveness."

"The 'ear,' an attachment which, when placed alongside a ship, will detect the approach of another vessel, has been known to all navies for a long time, but the allies now have a mechanical device, the sensitivity and accuracy of which exceeds anything heretofore employed for this purpose. Combined with the highly effective depth bomb, which explodes upon water contact at any depth fixed, this device has wreaked havoc on the submarines in the last few months."

"Unless a submarine can reach its destination undetected or lie on the bottom submerged until the time for action arrives, it is now difficult for it to do any business at all near the congested lines of transportation to Europe, all of which are well patrolled."

Feeding Garbage to Hogs

Many Cities in the United States are Saving More and Growing Pork

By feeding garbage to hogs instead of burning it, Minneapolis will save its taxpayers between \$50,000 and \$60,000 annually. The change became effective on April 1. United States cities which have recently adopted hog-feeding include: South Bend, Ind., Madison, Wis., Cedar Rapids, Iowa, Salt Lake City, Utah, and Harrisburg, Pa. The garbage from these cities will, it is estimated, produce 3,000,000 pounds of marketable pork per annum.

War Garden Bulletin

Practical Weekly Guide for Vacant Lot and Backyard Gardeners
(Issued by the Canada Food Board in collaboration with experts on the staff of the Dominion Experimental Farm.)

The chief concern of this week for the war gardener should be His Majesty the Spud. In 1916 sixty-three million bushels of potatoes were grown in Canada. In 1917 seventy-nine millions were grown. In 1918 every home cellar should become a "potato elevator" to release the best for the fighters and keep down the cost of living. Great care should be exercised in the initial preparations. The potato trenches should be perfectly straight and evenly spaced at about 27 inches apart. Use a line to get the measurements accurate. For an early potato this is the ideal distance. The seed pieces should be from 14 to 18 inches apart in the rows. The best practice is to select good medium sized potatoes and make four sets out of them, cutting lengthwise and then across. There are several potato cutters on the market, but while some of these are better than others, the most satisfactory way is to cut by hand. It is very important to plant freshly-cut seed. Leaving the sets uncovered in the trenches lessens the yield.

It is of the utmost importance to know the most economical depth to plant potatoes, as there is no doubt that different depths of planting will give different results. While shallow planting has given the best yields at Iowa in loose, sandy loam soil, the most economical depth is from four to five inches for rich loamy soils. Sets should be planted deeper in soils likely to be cut than in others more retentive of moisture. Where early potatoes are wanted, the sets should be planted shallow in the warm soil near the surface. Unless the soil is kept loose and free from weeds, the potato crop will not be large.

Early though the season is, the insect world is already "on the job." Cutworms destroy thousands of dollars' worth of vegetable crops every year. Gardeners must aid in the campaign to save the crops by destroying these pests. Watch for their appearance as they are already at work. They cut through the stems of the young beans and tomato plants at the ground line during the night, leaving the young plant dying on the ground. Investigation in the loose soil will generally discover the insect, and he can be removed by scattering along the rows poisoned bait made as follows: Bran, 29 lbs., cheap molasses, 4 quarts, Paris Green or white arsenic, half a pound; water from 2 to 2½ gallons. Mix the bran and Paris Green (or white arsenic) thoroughly in a warm tub while dry. Dissolve the molasses in the water and wet the bran and poison with the same.

Useful in Camp—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Eucalypti Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of chills, the muscles and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

Not an Essential Occupation
Sir Hugh Macdonald, the Winnipeg police magistrate, has ruled that men acting as clerks in confectionery stores and in other light occupations, where the work can just as well be done by women, are not rendering full service to the state. And men heartily agree with him.—Montreal Herald.

Minard's Liniment, Co. Limited.
Gents—I cured a valuable hunting dog of mange with MINARD'S LINIMENT after several veterinarians had treated him without doing him any permanent good.

No medicine so satisfactory. Get Dr. Hamilton's Pills today, 25c per box at all dealers.

Lost Indians of Kut

May Yet Re-appear Is the Belief of Officer

An officer who was present when Kut fell, and who knows Indian soldiers well, gives the hopeful view that the Indians of the garrison—close upon three thousand of whom all trace has been lost, are not necessarily dead. In fact, he personally is convinced that most of them were alive and dispersed about in townlets and villages in upper Mesopotamia, Asia Minor, and the borders of Persia.

A large convoy of insufficiently guarded prisoners is very likely to melt away by degrees, and the Indian soldier would be specially apt in disappearing, and would have little chance of being recovered, absorbed in the village population here and there. If a Mohammedan, his task would be easy, as he is a trade or calling as well, easier still.

The Turks do not bother about these stray individuals here and there, though they may total up to thousands, because they are glad to be quit of the trouble of feeding and looking after them; while the Indian soldier himself is refrained from corresponding with those outside for fear of drawing unwelcome attention to himself.

Let Cuticura Care for Baby's Skin

It's really wonderful how quickly a hot bath with Cuticura Soap followed by a gentle anointing with Cuticura Ointment relieves skin irritations which keep baby wakeful and restless, permits sleep for infant and rest for mother, and points to treatment in most cases when seems nothing would help.

Sample Each Free by Mail. Address post-office order to Cuticura, Boston, Mass. Sold by dealers throughout the world.

A Constipation Cure

A druggist says: "For nearly thirty years I have commended the Extract of Figs, known as Mother Seigel's Curative Syrup, for the radical cure of constipation and indigestion. It is an old, reliable remedy that never fails to do the work." 30 drops three daily. Get the Genuine, at druggists.

B. C. Fish Output

Greater Quantity of Fish and Higher Prices

The summary of the fishing results in Canada, just published by the naval department of the Dominion government, shows that the market value of British Columbia fish in 1917 was \$8,000,000 more than in 1916. This increase, although partly due to increased prices, is not altogether so, for a greater quantity of fish has been produced, in spite of the fact that the usual big run of sockeye salmon in the Fraser river district, which was due in 1917, did not materialize. The pack of this grade of salmon was only twenty-five per cent. of an ordinary year. Other grades, however, were packed in greater quantities.

Commends the Farmers

Warm commendation is due the farmers of Canada for the way in which they have taken the rebuff ministered by Premier Borden. They have proved their patriotism by deciding to return to their homes and to get as much out of their land as possible in spite of the handicap imposed. Farmers and soldiers have much in common; among other things both have seen pledges given them by the government broken.—London Advertiser.

PUBLIC NOTICE

Military Service Act, 1917.

Men 19 and 20 Years of Age.
Harvest Leave.

Leave of Absence on Ground of Extreme Hardship.
Procedure to obtain Leave of Absence.

Men Nineteen and Twenty Years of Age.

It has come to the attention of the Government that there is a widespread impression that young men of nineteen years, and those who became twenty since October 13, 1917, as well as those who may become nineteen from time to time and who have been or will be called upon to register under the Military Service Act, are to be immediately called to the colours.

This impression is quite incorrect. No date has yet been fixed for calling upon such men to so report for duty, nor has the question been brought before the Cabinet for decision. In view of the need of labour on the farm, it is most unlikely that consideration will be given to the matter until after the harvest is over, although of course the Government's action must be determined primarily by the military situation.

There is no further obligation incumbent upon young men of the ages above mentioned who have registered or who do so hereafter, until they receive notice from the Registrars.

Harvest Leave.

Some enquiries have been received as to the possibility of granting harvest leave to such troops as may be in the country at that time. No definite assurance can be given on this point as advantage must be taken of ships as they become available. On the other hand, harvest leave will be given if at all possible.

Leave of Absence on Grounds of Extreme Hardship.

It is desired that the Regulations respecting leave of absence in cases of hardship should be widely known and fully understood. Such leave will be granted in two cases:— (a) where extreme hardship arises by reason of the fact that the man concerned is either the only son capable of earning a livelihood, of a father killed or disabled on service or presently in service overseas, or in training for such service, or under treatment after returning from overseas; or the only remaining of two or more brothers capable of earning a livelihood (the other brother or brothers having been killed or disabled on service, or being presently in service overseas, or in training for overseas or under treatment after his or their return from overseas); brothers married before 4th August, 1914, living in separate establishments and having a child or children not to be counted, in determining the fact that the man is the "only" remaining son or brother; (b) where extreme hardship arises by reason of exceptional circumstances such as the fact that the man concerned is the sole support of a widowed mother, an invalid father or other helpless dependents.

It is to be noted that in all these cases the governing factor is not hardship, loss or suffering to the individual concerned, but to others, that is, members of his family or those depending upon him.

Procedure to obtain leave of absence.

A simple system for dealing with these cases has been adopted. Forms of application have been supplied to every Depot Battalion and an officer of each battalion has been detailed whose duty it is to give them immediate attention. The man concerned should on reporting to his unit state that he desires to apply for leave of absence on one or more of the grounds mentioned and his application form will then be filled out and forwarded to Militia Headquarters, Ottawa. In the meantime, if the case appears meritorious, the man will be given provisional leave of absence for thirty days so that he may return home and continue his civil occupation while his case is being finally disposed of.

We offer most of the above parcels of land for sale on every easy terms at 6 per cent. Prospective purchasers can obtain full particulars by writing us or telephoning us at 4764, Edmonton. We also have wheat farms, stock ranches and big tracts for sale throughout Central and Southern Alberta.

G. D. CARTER & COMPANY, LTD.,
307 C.P.R. Building, Edmonton.

JARROW

Watch JarroW Grow.

Mrs. J. D. Manners is spending a week visiting relatives in Innisfree.

Karl Whidden returned home from Toronto where he has been under military training.

Mrs. Benj. Loring and daughter Esther returned from the east on Sunday last.

The MacLaughlin deserted JarroW Sunday.

Mr. Edworthy is spending a couple of weeks out of town.

Mr. McKay, superintendent of United Farmers Elevators is spending a few days in town with his runabout.

Don't forget JarroW sports July the first.

Mr. McGee is brightening up the lumber office with a new coat of paint.

Saturday was a busy day in town on account of the registration.

Lydia Denison, Pearl Denison and Stanley Lennox were at Wainwright last week writing on Grade VIII examinations.

If you want a girl just buy a car.

Do not miss the big celebration at JarroW on the 1st, especially the ball game.

The girls are quite downhearted about the piece they saw in the paper.

Jang Lee is doing great business in this city.

Mrs. Loring and daughter Esther returned home last Sunday evening.

WATCH JARROW GROW.
